**OGGETTO:
SUBJECT : Gearbox / Planet Hub modifications**

MONTH (IT) / MARCH (UK) 2013

ENGLISH

From date code 13T05 a change has been made to the planet hub and gearbox for the above models.

Due to an increase in the number of customer with reported tool jams, the planet hub has been modified to expose the bayonet fixing more and make it easier for the customer to locate the tool they are using.

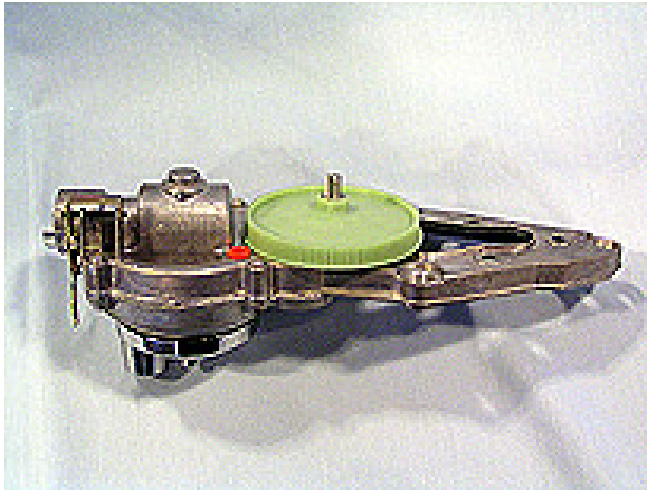

Old Planet Hub KW711656

New Planet Hub KW715264

The new planet hub CAN be retrofit to older machines without the need to change the pre-existing gearbox.

The gearbox has also been modified to further improve performance and stability. This part can also be retrofit to older models.

Old Gearbox assembly KW711655

New Gearbox assembly KW715259

The older parts KW711656 and KW711655 will still be available until the stock is exhausted.
